

**NCAA 39th ANNUAL CONFERENCE**  
**“Aviation....The Next Generation”**  
**Omni Grove Park Inn & Spa**  
**Asheville, North Carolina**

---

The North Carolina Airports Association would like to invite you to attend the 39th Annual Conference in Asheville, NC. “Aviation: The Next Generation” is a timely theme for this conference. 2018 is a time of opportunity to understand differences among generations of airport professionals. It is a time when we must find new revenue streams, understand positive changes happening with our state funding process, and prepare for threats that are emerging as those most likely to occur in our world today. There is a new generation upon us, and this conference will highlight ways to identify and positively approach the new generation of aviation in North Carolina airports.

**“When Generations Connect”**

**Speaker: Scott Zimmer, Keynote Speaker and Consultant, BridgeWorks**

Four distinct generations are working together shoulder to shoulder, each with a unique set of attitudes, values and work styles. It used to be that older workers were bosses and younger ones took orders. Now, roles are all over the map and rules are being rewritten. Organizations are feeling the pain of generations as they struggle to manage productivity and morale while maintaining high standards of quality and service in a challenging economy. This program will give you the tools to convert this form of diversity from an obstacle into an opportunity.

10:30am-11:15am Coffee Break w/Exhibitors

11:15am-12:00am General Session II

**“The Next Generation of the Workforce”**

**Speaker: Lynne Ingersoll, Founder, xplorleadership**

Mod: Lauren Scott, CLT-Douglas Intl Airport

This session will focus on the generational gap created by the entrance of millennials into the workforce. Explore the cause and effect of new entrants on the establishment and tips on how to maximize their benefit to your organization.

**Panelist: Lew Bleiweis, Executive Director, Asheville Regional Airport and/or**  
**Panelist: Mike Reisman, Deputy Executive Director of Development & Operations, Asheville Regional Airport**  
Mod: Tina Kinsey, Asheville Regional Airport  
Airports prepare for aircraft incidents. We know how to respond. But in today's world, the most likely threats at airports – large and small – will happen in public spaces, and be acts of violence or terrorism. No airport is immune. Learn from a large airport – Ft. Lauderdale International Airport – about the January 2017 active shooter incident, and from fellow North Carolina airport, Asheville Regional Airport, about their October 2017 explosive device incident. This session will focus on a description of the series of events, the airports' responses, key learnings and will include a time for Q & A.
- 10:15am-10:50am Coffee Break w/Exhibitors
- 11:00am-12:00pm General Session VI  
**"The Next Generation of Airport Leadership & Management"**  
**Speaker: NC AirTAP**  
Mod: Gary Broughton, Wilmington International Airport  
Join us for a preview of AirTAP's upcoming Airport Management & Leadership Curriculum that will be launched in Summer 2018 for seasoned, brand new, and future airport managers. You will benefit from presentations on the skills, and resources, and latest technology impacting airport management. Sessions will also include opportunities for peer discussion and sharing, leveraging the talents and experiences of North Carolina aviation leaders. This session will leave you eager to attend your first workshop.
- 12:15pm-1:30pm **"The Next Generation Luncheon"**  
**Grab your lunch and join the Idea Zone which interests you or hop from one to the other. Q & A and networking during your zone encouraged! Use the conference Facebook page to pose questions in real time to the moderator.**  
**Idea Zone 1 - "The Next Generation of Cyber Threats"**  
**Speaker: Royce Holden, Project Manager, IT Consultant, Faith Group, LLC**  
**Speaker: Victim of Cyber Threat TBA**  
Moderator: TBD  
Cybersecurity continues to draw attention in the media and around the world. Increased computing speed, growth of mobile tech, explosion of social media usage, BYOD, Big data and the Internet of Things (IoT) all play a part in setting up our networks and infrastructure for attack. During this round table discussion, find out how to plan to protect your systems and networks from vulnerabilities through proper GRC (Governance, Risk Management, Compliance) processes. Answers to questions such as "How does physical and cyber security align?" and "What do I need to know about my network and the things that keep IT managers up at night?"
- Idea Zone 2 - "The Next Generation of Drones, drones, drones...they are everywhere"**  
**Speaker: Basil Yap, UAS Program Manager, NCDOT Division of Aviation**  
**Speaker: Darshan Divakaran, UAS Project Manager, NCDOT Division of Aviation**  
Moderator: Phil Lanier, Airport Director, Johnston Regional Airport  
This idea zone will focus on drones at or near airports. It will explore different approaches to ensuring safe drone operations near airports including educational outreach and detection/monitoring technology. In addition, it will cover how drones can support airport operations and infrastructure monitoring.

**Wednesday, March 28, 2018-continued**
